

PIONEERING AND CONSTRUCTION

PLAN

- What sort of pioneering structure do we want to build?
- How are we going to manage risks?
- What sort of inspiration and designs should we reference/ implement?
- Who is going to lead this activity?
- How can we make sure this is both enjoyable/challenging for all of us?

DO

- Is everyone having fun? If not, how can we make it fun?
- What sort of lashings are most effective for our design?
- What sort of frame load tethering do we need to use?
- Who is leading the construction and making sure everyone is safe?
- How can we adapt the design as it is being built to make it bigger/stronger/better/longer?

REVIEW

- What did we learn that was new?
- What do we need to plan for better next time?
- Does the final result suit our planned purpose? How so/How not?
- What did we do really well with this activity?
- How did the leader of this activity do well?

PLAN>DO>REVIEW> CARD

PIONEERING AND CONSTRUCTION

Members of your section want to build something awesome using pioneering materials, planning and skills. Working through the following steps, discuss the *planning, doing and reviewing* for this activity.

Not every question needs to be asked as the content may be discussed as the conversations evolve. These questions don't always have to be discussed in this order, this is simply a guide to help you **Plan>Do>Review>** your next adventure.
