

Community Capers

COMMUNITY

Plan ▶

- What do you understand to be your community?
- What do you know about your local community?
- What do you think needs to be changed to make your community better?
- Develop a project or activity that can help your community
- Who else will be involved?
- Will you involve members of the community?

Do ▶

- Complete your project or activity
- Visit community centres or community hubs to learn more about your community and how it operates – maybe you would like to visit another community service organisation, such as the SES, CFA or RFS.

Review ▶

- What is your vision for your community?
- How else can you take action to build sustainable communities?

Share your experience with your peers and discuss how each of you might tackle this differently next time
