

## Community Outreach

COMMUNITY

### Plan ▶

- What do you know about the Sustainable Development Goals?
- Who are some local community groups/individuals you could share this knowledge with?
- How is a 'partnership' different to a 'team' or 'Project Patrol'?
- What are some ways you could work with another community group to benefit the community in a new way?

### Do ▶

- What is an open-to-all community event you could run?
- Make a partnership or 'Project Patrol' with another community group.
- Run your planned community activities.
- Share your knowledge of the Sustainable Development Goals with people in the community
- How can you share information about your community partnership?

### Review ▶

- What was good about your community partnership?
- Have other community groups asked to join your partnership?
- Would you run a similar community activity again?
- How did your partnership help act on the Sustainable Development Goals?

Share your experience with your peers and discuss how each of you might tackle this differently next time
