

Community Compost

COMMUNITY

Plan ►

- How can you reduce the food you throw out?
- What can you do with leftover food?
- How can you help others with the food you don't eat?
- What can be a longer-term solution to the food waste problems we face?
- Design a compost for our Scout Hall, considering what tools and supplies we might need

Do ►

- Build the compost
- What is the best location for it?
- Can we put it in a place where it can be accessed or used by the local community?
- How might this help us, our Scout Group and the community?
- What were the most exciting parts of this activity?

Review ►

- What have you learnt about yourself and others through this activity?
- What other things could we do to maximise the benefit from our wasted food?
- Are there other community groups you could donate food to?
- What else could you do to help build knowledge about food waste and working towards 'zero hunger'?

Share your experience with your peers and discuss how each of you might tackle this differently next time
