Interesting Innovations

Plan ▶

- What does infrastructure mean to you?
- What does innovation mean to you?
- What do you know about how roads are made, electricity is generated, hospitals are run, or public transport is controlled?
- What would you like to learn more about or get a behind-the-scenes look at?

Do ▶

- Organise a visit to an infrastructure site – water treatment plant, airports, hydro plant, wind farm, tunnels, public transport control centre, hospital
- What questions do you have about your visit?

Review ▶

- What other places would you like to explore?
- Did your visit make you think of other jobs you might like to try?
- What did you learn from your visit?
- Is there anything you learnt at your visits that could be used elsewhere?

Share your experience with your peers and discuss how each of you might tackle this differently next time
