

# KISC100 AUSTRALIAN CONTINGENT

## Optional Post Tour

### Proposed Itinerary

The Contingent Management Team (CMT) is considering two possible post tour options, one in Switzerland or one to Germany. Only one of these post tour options will go ahead, but we are working on itineraries for both options. Below are some suggested activities that may be included in both itineraries. Please indicate on your application which post tour option you are most interested in. Please note this is not a binding choice and does not mean you are guaranteed a spot on the post tour; it is only giving the CMT some information so that we can build the best tour.
