

# How to calculate your Jacket Shirt size

## To calculate your size:

- Take a similar jacket from your wardrobe and lay it flat on the table.
- Smooth it out with no wrinkles.
- Measure from just under the sleeve seam, across the chest to the other sleeve seam, this is a half chest measurement.
- Measure from the top of the shoulder to the bottom of the jacket, this is the Length measurement.
- Remember a Jacket will be worn over other clothing, so you might wish to be generous
- Keep in mind that Scouts and Venturers may experience growth before the commencement of the event.

## Contingent Jacket:

- 100% polyester mechanic stretch fabric bonded with microfleece
- 3-layer Softshell fabric 245gsm
- Waterproof rating 10,000mmm and breathability rating 800mm
