Know your support. If you're feeling unwell, overwhelmed, or just need a breather, reach out to your leaders or mates early. You're never on your own, especially when at Scouts.

Hike Queen Charlotte has made it safely to the South Island and set off on the expedition with incredible views and mixed weather. Sounds Explorer took the water taxi over Punga Cove and stayed at an ocean view campsite. Today they completed a lovely hike.

CMT ADVENTURES

The CMT went out to visit a few expeditions and see how everyone was getting on. We caught up with the Adrenaline Junkies, who were right in the thick of it, abseiling down rock faces and then heading off for some rafting. Lots of laughs, a bit of nerves, and plenty of teamwork made it an awesome stop and a great snapshot of the adventure happening across expeditions.
