Meanwhile, Top of the World has been treating everyone to some incredible views and we've loved seeing the amazing photos coming in from the summit.

We also heard some epic stories about abseiling off a parking building in town, a true adventure right in the middle of the city! Adrenaline, laughs, and memories being made everywhere you look.

CMT ADVENTURES

Today the CMT caught up with Take the Plunge and Race Crew. Take the Plunge were heading into the open water for the first time, and it was awesome seeing the excitement as they took the leap. Over at Race Crew, we got to check out the progress on the cars and even had the chance to test drive them! The CMT loved seeing our Contingent members enjoying their expeditions, having fun, and making the most of every moment.
